Career Objective

Data Science student leveraging Python, SQL, and automation skills to solve SEO challenges. Passionate about using data to reverse-engineer search algorithms, automate reporting, and optimize website performance.

Academic Qualifications

Qualification	Institution	Year	Marks/CGPA
B.Sc. in Data Science	Inspiria Knowledge Campus	2027	GPA: 7.8
Grade XII (COMMERCE)	ARMY PUBLIC SCHOOL	2022	72%
Grade X (CBSE)	ARMY PUBLIC SCHOOL	2020	68 %

Technical Skills

- Data Analysis: Python (Pandas), SQL, Excel, Tableau, Data Cleaning
 - Algorithms: Graph Traversal (DFS), Random Forest, Prediction Models
 - Technical SEO: HTML/CSS Structure, Automation
 - Data Cleaning, Data Visualization, Prediction Models
-

Projects

1. Web Scraping & Trend Analysis (Football Predictor)

Algorithm implementation and Visualization

- Implementation of D.F.S Algorithm to visualize pathfinding,

2. LIVE FOOTBALL Match Prediction

Data scraping and cleaning, evaluating and Random forest model implementation

- Cleaned and analyzed real-time datasets to predict outcomes, mirroring competitor analysis and keyword research workflows.
 - Implementation of web scraper to scrape live football data
-

Certifications

- Python , pandas, intro to Machine Learning , Data Visualization
- SQL
